<b>Description</b>			
<p>This issue is mainly about generalizing the display tabs function to get rid off individual tab templates but there are some visual changes too. E.g.</p> <ul style="list-style-type: none"><li>• On the index page bookmarks and notes now have their own tabs</li><li>• Empty tabs are not shown anymore. This could happen before e.g. if there was no tab content and also no buttons to add content because of low user permissions</li></ul>
