

OpenAtlas - Feature #1781

Import for bibliographies and editions

2022-08-10 10:40 - Luke Günther

Status:	Closed	Start date:	2022-08-10
Priority:	Normal	Estimated time:	4.00 hours
Assignee:	Alexander Watzinger		
Category:	Data import/export		
Target version:	7.6.0		
Description			
Is there a way to import references? They're currently not included in the list of available import fields.			
Update: import is now also possible for			
<ul style="list-style-type: none">• Bibliographies• Editions			

History

#1 - 2022-08-10 11:03 - Alexander Watzinger

- Tracker changed from Question to Feature
- Category set to Data import/export
- Status changed from New to Acknowledged
- Target version set to 7.7.0

It should be possible but I'm not sure if we get it into this release so I put it into the next to be save. This would be a useful feature and thank you for reporting.

#2 - 2022-08-23 14:47 - Alexander Watzinger

- Status changed from Acknowledged to In Progress
- Assignee set to Alexander Watzinger
- Estimated time set to 4.00 h

#3 - 2022-08-23 16:09 - Alexander Watzinger

- Subject changed from Import references to Import for bibliographies and editions
- Description updated
- Status changed from In Progress to Closed

I implemented import for bibliographies and editions. I didn't implement import for external references because it would be more work because of additional needed validations. In case you need them too I would kindly ask you to create a new issue for that. In case you want to use this feature before the next release you could try the develop branch where it is already included. Thanks again for reporting.

#4 - 2022-08-25 12:25 - Alexander Watzinger

- Target version changed from 7.7.0 to 7.6.0

#5 - 2022-08-25 14:25 - Alexander Watzinger

The new import features were just now released with the version 7.6.0. So there is no need to switch to the **develop** version anymore in case you want to use them because it is already in the **main** branch.
